DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-21 are rejected under 35 USC §103(a). This rejection is set forth in the prior Office action mailed on February 04, 2003.

Response to Arguments

Applicant's arguments filed on August 08, 2003 have been fully considered but they are not persuasive.

Applicants argue that the cited reference, Dieter et al., is different that the claimed invention, because it start with one stream instead of two as claimed. This is not convincing because, Dieter et al. teach the body of the Jepson claim, i.e., what it is admitted as known. While the examiner agrees that the statement of unexpected results was misplaced, the examiner still contends that further treating the fuel stream is within the level of ordinary skill in the art as an optimization process in order to obtain the greater amount possible of the useable materials.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
